

Software Licensing

IT's Personal

- Facilitates individual, paired or group working and sharing of projects
- Whiteboard compatible

Curriculum Coverage Highlights

Say and use number names in order * Count reliably * Recognise numerals * Use 'more' and 'less' to compare numbers * Adding and subtracting * Longer and shorter * Heavier or lighter * Money and time * Position, direction and movement * Begin to name shapes * Simple problem solving * Counting, properties and sequences * Place value and ordering * Calculations * Fractions * Measure, shape and space ~Length, mass and capacity * 'Real life' problems * Organising data and much more!

Destination Maths

Foundation and Key Stage 1 Course Overview

Introduces and supports the teaching of key mathematical concepts through a comprehensive online learning resource. From Reception through Foundation to Key Stage 1 this content has been proven to motivate and engage young children. All the learning resources have been fully referenced to the National Numeracy Strategy learning objectives. Each topic contains flexible numeracy resources that can support whole class teaching, groups or one-to-one sessions. Attainment can also be monitored through the additional learning management software.

Features

- 10 topic modules contain 19 units with 48 learning objectives
- Aligned to UK curriculums
- Pupil activity workouts test comprehension of concepts
- High quality graphics, narration and activities
- Works with Destination Success Learning Management Tools (LMT) to provide planning; selection; quick and easy access of content; and tracking of pupil activities

Key Stage 2 Course Overview

The comprehensive, flexible numeracy content supports the teaching of key mathematical concepts in Key Stage 2. Learning activities can easily be created and are proven to motivate and engage the learner. All content and resources are referenced to the National Numeracy Strategy learning objectives. Topic modules form an essential numeracy resource that can support whole class teaching, group work or one-to-one sessions. Attainment can also be monitored through the additional learning management software.

Features

- 6 topic modules contain 14 units with 32 learning objectives
- Aligned to UK curriculums
- Pupil activity workouts test comprehension of concepts
- High quality graphics, narration and activities
- Works with Destination Success Learning Management Tools (LMT) to provide planning; selection; quick and easy access of content; and tracking of pupil activities

Benefits

- Engages and motivates pupils with literacy
- Reliable, web-enabled software
- Continuity of learning and teaching
- Trackable pupil activities measure attainment
- Facilitates individual, paired or group working and sharing of projects
- Whiteboard compatible

Benefits

- Engages and motivates pupils with literacy
- Reliable, web-enabled software
- Continuity of learning and teaching
- Trackable pupil activities measure attainment

Curriculum Coverage Highlights

Counting, properties, numbers and number sequences * Place value and ordering * Estimating and rounding * Calculations * Multiplication and division * Fractions * Decimals * Measurement, shape and space: triangles; reflective symmetry; time * 'Real life' problems * Reasoning and properties of numbers and number sequences and much more!

Key Stage 2/3 Transition

Use of this comprehensive and flexible online content provides support and attainment through Key Stage 2 and into the Secondary phase. This flexible on-line content can be used as a resource for the learning and teaching of numeracy.

The comprehensive content and activities have been proven to engage and motivate pupils. Linked to the National Numeracy Strategy learning objectives, the content is designed to provide support for pupils in transition between primary and secondary. Topic modules form an essential numeracy resource that supports teachers, whether whole class, groups or one-to-one sessions. Attainment can also be monitored through the additional learning management software.

Features

- 10 topic modules contain 38 units with 52 learning objectives
- Suitable for Primary and Secondary maths education
- Aligned to UK curriculums
- Pupil activity workouts test comprehension of concepts
- High quality graphics, narration and activities
- Works with Destination Success Learning Management Tools (LMT) to provide planning; selection; quick and easy access of content; and tracking of pupil activities

Benefits

- Engages and motivates pupils with literacy
- Reliable, web-enabled software
- Continuity of learning and teaching
- Trackable pupil activities measure attainment
- Facilitates individual, paired or group working and sharing of projects
- Whiteboard compatible

Curriculum Coverage Highlights

Numbers and number sense * Integers, powers and roots * Place value, ordering and rounding * Add, subtract, multiply and divide * Calculations: number operations * Algebra: sequences, functions,

and graphs * Fractions * Percentages * Ratio and proportion * Geometrical reasoning * Shape, space and measure * Handling data * Written and mental methods * and much more!

Key Stage 4 Algebra Plus Course Overview

Comprehensive content for the teaching of Key Stage 4 Numeracy from Riverdeep Interactive Learning - part of the Destination Success range of key curriculum courseware. Pupils continue their study of numbers and operations by exploring ratios, proportions,

and irrational numbers and begin a study of algebra, geometry, statistics, and probability.

- Essentials of Algebra: algebra fundamentals, evaluating an algebraic expression, simple equations, variable on both sides of the equation, solving literal equations
- Fundamentals of Geometry: geometry fundamentals, triangles, volume and surface areas
- Radicals and Exponents: introduction of radicals and Pythagorean Theorem, scientific notation
- Ratio and Proportion: ratio, proportion, direct and inverse variation, similar polygons
- Statistics: interpreting and constructing graphs, mean, median and mode, frequency distribution, and histograms
- Probability: simple probability, probability of combined events

Key Features

- Contains 5 topic Modules; 17 Units and 24 individual learning objective Sessions
- Flexible programme of comprehensive core-curriculum course work
- Logical, step-by-step approach
- Open-ended format supports use of other resources
- Supports whole class, group and one-to-one teaching and learning
- Explicit on-screen communication of tasks
- Real-world demonstrations and scenarios
- Management tools help term and individual lesson planning
- Easily assessable outcomes for classes and individuals
- Motivated and engaged pupils
- Enhances teacher planning and performance
- Learning Management Tools to Plan, Select, Access and Track

Learning Benefits

- Research-proven to raise standards
- Especially effective with low performers

Destination Maths MiniBytes

Destination Maths MiniBytes can be used for whole class teaching, via a whiteboard or in one-to-one or group sessions.

Number: Early Years 4-5

Numbers up to 10, addition & subtraction to 10

Curriculum Links: Early Learning

Goals: Mathematical Development, Number, Calculating

Scotland: 5-14

Measures: Early Years 4-5

Money, Length, Time, Weight

Curriculum Links: E Years

Goals: Mathematical Development. Shape Space & Measures

Scotland: 5-14

Shape and Space: Early Years 4-5

Recognise 2D and 3D shapes,

Sequences & Direction

Curriculum Links: E Learning

Goals: Shape space & measures

Scotland: 5-14

Number: Primary 5-7

Numbers to 999, addition, subtraction, division, multiplication

Curriculum Links: NNS Number & Number Systems, Calculations:

Understanding Addition & Subtraction, Division and Multiplication (Y1, Y2)

Scotland: 5-14

Measures: Primary 5-7

Money, Length, Time, Calendar & Weight
Curriculum Links: NNS:Measures, Shape & Space:Measures & Solving Problems (Y1,Y2) Division & Multiplication (Y1,Y2)
Scotland: 5-14

Shape: Primary 5-7

3D Shapes, Volume, Tables and Graphs
Curriculum Links: NNS:Measures, shape & space, measures & solving problems (Y1,Y2)
Scotland: 5-14

Fractions and Decimals: Primary 7-9

KS1/KS2 (1CD)
Curriculum Links: NNS: Numbers & number systems: Fractions (Y2,Y3,Y4)
Scotland: 5-14

Number: Primary 7-9

Numbers to 9999, addition, subtraction, division & multiplication
Curriculum Links: NNS: Number & Number Systems, Calculations: Understanding Addition & Subtraction, division and Multiplication (Y3,Y4)
Scotland: 5-14

Measures: Primary 7-9

Money, Temperature, Time & Area
Curriculum Links: NNS:Measures, shape & space and Solving Problems (Y3,Y4)
Scotland: 5-14

Co-ordinates, Symmetry, Triangles and Angles

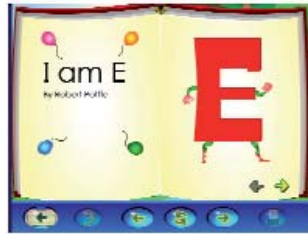

Curriculum Links: NNS: Measures, shape & space (Y3,Y4)
Scotland: 5-14

- Facilitates individual, paired or group working and sharing of projects
- Whiteboard compatible

Curriculum Coverage Highlights

Recognising print * Develop listening * Sounding and naming * Explore texts * Identifying sounds * Re-read and recite * Decoding * Constructing sentences and CVC words * Story structures * Fiction and non-fiction * Consonant blends * Characterisation * Vocabulary words * Compounds * Acquiring data * Rhythm * Visualisation and much more!

Key Stage 2 Course Overview

This flexible and comprehensive literacy content builds and reinforces key concepts based on the Key Stage 2 Literacy curriculum. Building on emergent literacy and reading skills,

Destination Literacy KS2 extends learning content and activities through an increasing variety of text genres. Comprehensive and flexible topics form an essential literacy resource that supports teachers and learners. Destination Success includes Literacy starter activities, talking books, text and comprehension exercises. This can also be used in a flexible way with whole class, groups and individual pupils.

Features

- 21 topic and skills units and 249 age-related learning activities - huge repository of content and activities
- Aligned to UK curriculums
- High quality graphics, narration and activities
- Works with Destination Success Learning Management Tools (LMT) to provide planning; selection; quick and easy access of content; and tracking of pupil activities

Benefits

- Engages and motivates pupils with literacy
- Reliable, web-enabled software
- Continuity of learning and teaching
- Trackable pupil activities measure attainment
- Facilitates individual, paired or group working and sharing of projects
- Whiteboard compatible

Curriculum Coverage Highlights

Exploring text * Forming CVC and silent e words * Informational texts * Developing knowledge * Locate information * Adjectives * Question, exclamation and statement * Inquiry and investigation * Verbs and adverbs * Historical fiction * Prefix and suffix * Story writing * and much more!

Destination Literacy MiniBytes

Destination Literacy MiniBytes can be used for whole class teaching, via a whiteboard or in one-to-one or group sessions.

Literacy Starters: Early Years 4-5

Curriculum Links: E Learning
Goals: Language and Communication: Linking Sounds and Letters
Scotland 5-14

Grammar and Spelling: Early Years 4-5

Curriculum Links: Literacy Strategy: T2, W10-12, S2, S5
Scotland 5-14

Destination Literacy Foundation and Key Stage 1 Course Overview

This flexible and comprehensive literacy content introduces and reinforces key concepts based on the Early Years and Key Stage 1 Literacy curriculum. This engaging and motivating content helps young children to learn phonics; phonemic awareness; vocabulary and develop reading comprehension skills. This content also provides children with a wide range of authentic fiction and non-fiction texts. Topics based on age-related learning activities form a large bank of content providing teachers with flexible learning resources for class and individual use by young children.

Features

- 20 topic and skills units and 255 age-related learning activities - huge repository of content and activities
- Aligned to UK curriculums
- High quality graphics, narration and activities
- Works with Destination Success Learning Management Tools (LMT) to provide planning; selection; quick and easy access of content; and tracking of pupil activities

Benefits

- Engages and motivates pupils with literacy
- Reliable, web-enabled software
- Continuity of learning and teaching
- Trackable pupil activities measure attainment

Destination Music

Destination Music Foundation

Destination Music learners embark upon an exciting musical adventure with 'Mel O'Dee', your friendly guide - enriched with superb animation, graphics and sound, engaging songs, rhymes, movement exercises, role-plays, language activities, art and craft

tasks, activity sheets and interactive games. Activities are designed to explore and develop basic music skills including aural discrimination, sound recognition, composition and performance skills.

Curriculum Overview

- 5 Topic modules - curriculum - aligned
- Encourages role-play, mime, movement and design
- Promotes creative thinking and freedom of expression
- Develops the learner's sense of rhythm, pitch and pulse
- Equips learners with transferable skills to higher education

Destination Music Key Stage 1

Destination Music Key Stage 1 learners explore and develop the musical elements including pitch, tempo, duration, dynamics, timbre, texture and silence as well as providing a broad range of musical activities for developing performing, composing, listening and appraising skills. Includes a music glossary, culturally diverse audio tracks and companion activity sheets, lesson plans and on-line user guide. Destination Music titles include a comprehensive content access and learner development assessment facility, enabling continuous assessment at both individual and class level. Destination Music includes references to English, Scottish, Welsh and Northern Irish Foundation.

Curriculum Overview

- 14 topic modules - curriculum-aligned
- Suggested differentiation and cross-curricula indicators
- Caters for diverse learning styles and abilities
- Develops knowledge and skills in pitch, tempo, duration, dynamics, timbre, texture and silence
- Develops performing, composing, listening and appraising skills.
